e-Nirman

(Online Project Monitoring System)

Introduction:

e-Nirman is an integrated online project monitoring system to monitor execution of projects in a most effective manner. The Organization seems to ensure greater transparency and accountability and help completing the projects in a time bound manner and increase efficiency to the customers. This system is said to track the physical and financial progress of works pertaining to different Project directors, managers and engineers. It will also ensure over viewing the projects in different angles. In the first phase of implementation of the project this system will be made accessible to all office bearers starting from the core member to the engineers level. In the second phase, it is envisaged to extend facilities to contractor levels and provide a customer interface. The system will ensure project monitoring starting from the budgetary allocation, allotment of funds, calling of tenders, award of contracts, progress of work and expenditure thereon. This system will also be able to monitor progress of works both physical and financial, head-wise, monthly, quarterly and on yearly basis.

Features of the System:

- ➔ Project Code Wise physical work progress and Financial Expenditure can be managed.
- ➔ Scheme wise and level wise physical work progress and financial expenditure can be traced.
- ➔ Managing master data by core members.
- ➔ Alert mechanism through e-mail and SMS.
- ➔ User friendly screens & eradication of complex screens.
- ➔ Customized dynamic reports which enhances decision making.
- ➔ Separate login credentials for different users.
- ➔ Dynamic forms for easy customization as per requirement.
- ➔ Online accessible system facilitating instant updating of data.
- ➔ Generation of consolidated reports.
- ➔ Project director can easily track and trace the physical Work progress and Financial Expenditure for every project.
- ➔ Project director can easily get the reports like work in progress, Work Completion, Work closure, Work in delayed with proper reason.
- ➔ Various MIS reports and graphical analytics can be generated from the system.

Uniqueness in e-Nirman

- ➔ An integrated online project monitoring system to monitor the physical and financial progress of works spread out in remotely.
- ➔ Highly beneficial for both Corporate & Govt. Sector.
- ➔ Monitoring of physical & financial progress of the projects running across the globe.
- ➔ Least possible usage of resources & infrastructure.
- ➔ Successfully running at NRHM, PWD and RD Department of Govt. of Odisha.
- ➔ A click away from the detail financial report on each project. All the financial heads & sub heads are taken in to system, so that any detailed financial report can be generated.
